

COMMON SCREEN COMMANDS

Tap:

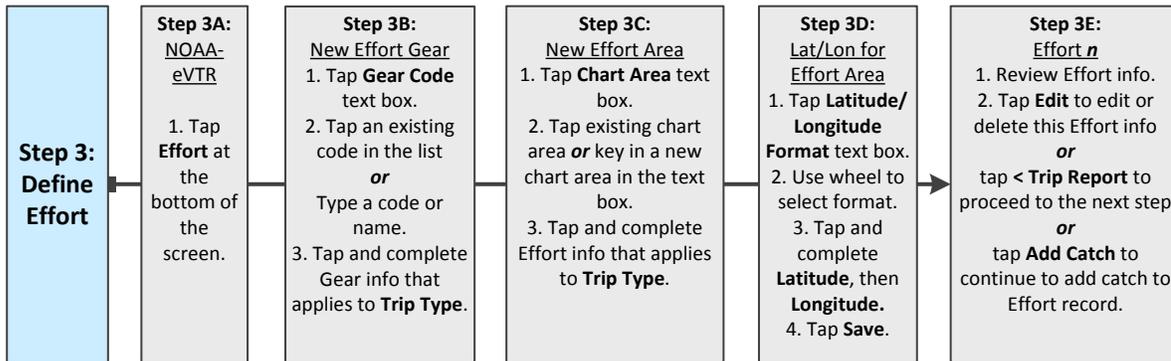

- Edit** to change or delete information already entered.
- Next** to go to the next screen in the series.
- Back** to go back to the previous screen.
- Save** to save an entry or a change.
- Done** when you are ready to move on to the next screen or section.
- Cancel** to exit the current section without making changes.

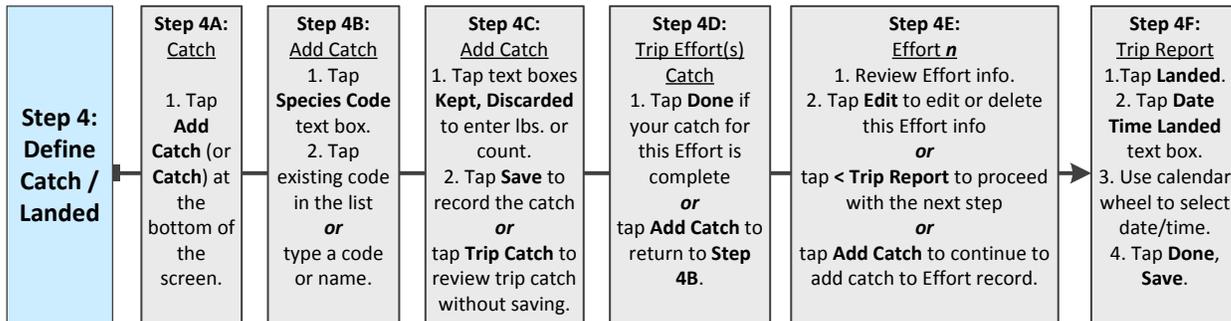

General Usage Hints:
When reviewing information, scroll down to see all information.
Fish Online offers auto-complete when possible.
Fish Online supplies zero values when possible.
Fish Online creates Favorites from your past reports.

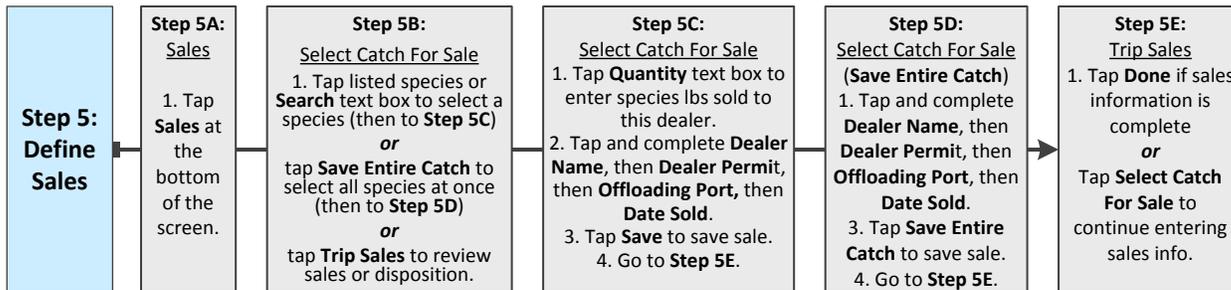

Step 2 User Hints:
Times are in AM/PM format.
If a non-commercial trip, Fish Online will prompt for trip-appropriate information, such as gear and crew.
You can supply Date Time Landed in this step or later on after you define the catch.

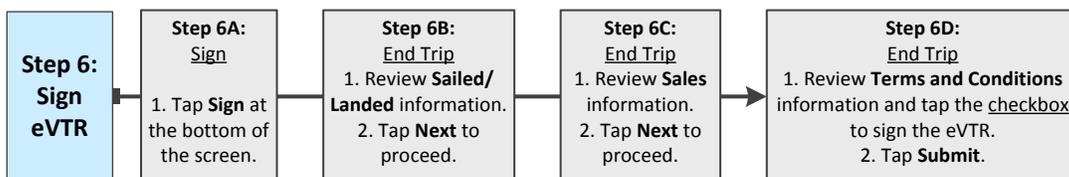

Step 3 User Hints:
You can add species only after you have defined the effort. After that, you can add species by accessing the appropriate **Effort**, then tapping **Add Catch**.
Tap **<Trip Report** to review.
Use decimal points for fractional values.
Enter a zero value if a field does not seem to apply to your trip.

Step 4 User Hints:
Perform separate **Catch** menu operation for each species under **Effort**.
If trip had **no catch**, type **nc** in **Species Code** text box.
Sales function appears at screen bottom once you finish **Date Time Landed**.
Calendar wheel does not allow dates that conflict (sale date before landed date, etc.)

Step 5 User Hints:
Sales can be sales to a dealer **or** disposition of the catch for non-sales fishing.
Sales info **must** match **Catch/Landed** info.
Enter all non-sales codes, such as **Bait** or **Home Consumption**, under **Sales**.

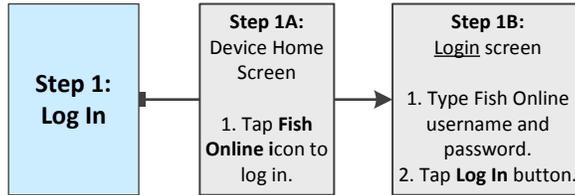

Step 6 User Hints:
If you forgot to add data, cancel the **Submit** process and choose the appropriate section to make the addition.
Always tap **Sign Out** after you have completed an eVTR form.

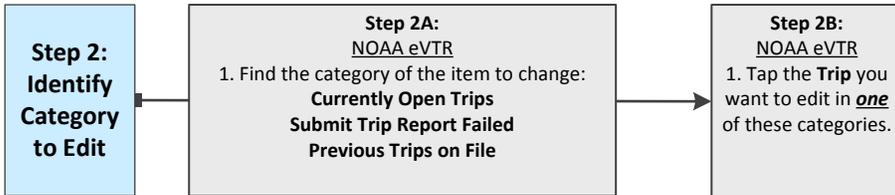

COMMON SCREEN COMMANDS

Tap:

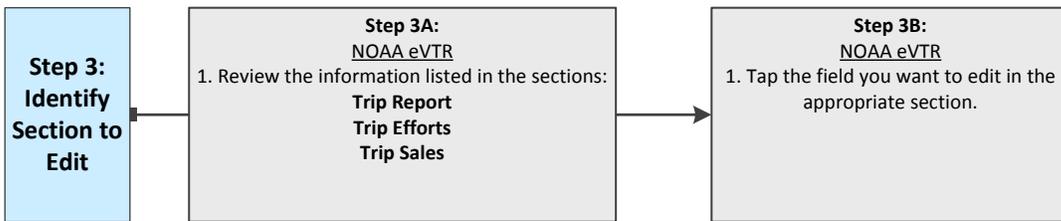

- Edit** to change or delete information already entered.
- Next** to go to the next screen in the series.
- Back** to go back to the previous screen.
- Save** to save an entry or a change.
- Done** when you are ready to move on to the next screen or section.
- Cancel** to exit the current section without making changes.

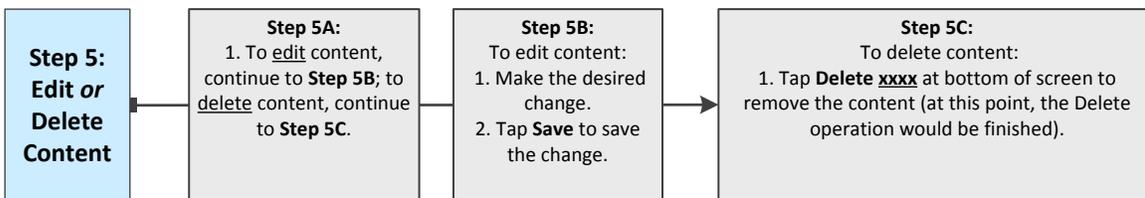

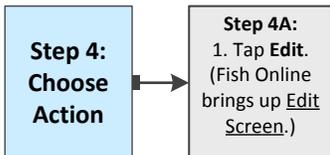

General Usage Hint:
There is more than one way to complete an **Edit** or **Delete** operation than the method presented here. You can change an eVTR at any point in the process by tapping **Edit** at the top of the screen.

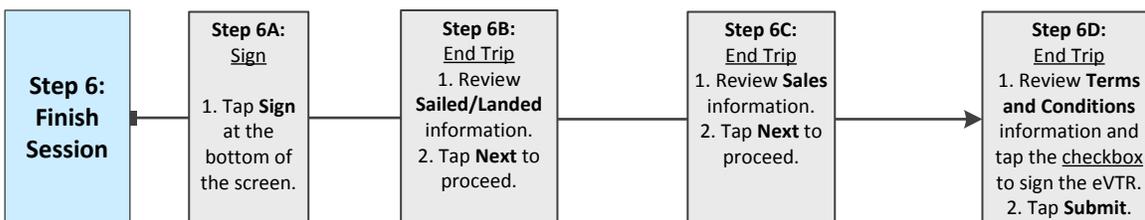

Step 2 User Hints:
If your trip report failed to submit, open **Submit Trip Report Failed** to get information to correct the problem. Editable fields have a carat (>) next to them.

Step 3 User Hints:
Make sure you scroll through the entire screen to see all three editable sections. Remember that **Catch** is included in **Effort** under **Effort Catch Report**.

Step 5 User Hints:
When you delete, Fish Online always lets you know what you're deleting (e.g., a field, a section, or an entire report). Fish Online always makes you confirm a **Delete** operation.

Step 6 User Hints:
To delete an entire trip, go to the Home screen (NOAA-eVTR), tap the trip you want to delete, tap **Edit**, then tap **Delete Trip** at the bottom of the screen.
