These data are the best available to NMFS when this report was compiled.

Final numbers may be adjusted by NMFS to account for miscoded trips and other sources of error.

Trips made reflect completed trips, for access areas include both compensation and normal trips.

*General Category, assigned coverage is on weekly level

** Please note that Georges Bank target coverage is 20% and the Mid-Atlantic target coverage is 5%

Due to the nature of VMS declaration codes we are unable to separate out coverage rates for these individually
