

Transboundary Resources Assessment Committee

Science/ Industry Meeting

July 1 , 2015

New Bedford, Massachusetts

Allocation Shares

- Two weighted factors:
 - Resource utilization: catch history for the period 1967-1994
 - Resource distribution: surveys(33 year moving avg.)
- Factors not weighted equally
 - Resource utilization weighting declined over time; currently at 10%
 - Resource distribution at 90%

At 2015 TMGC September meeting, after quota negotiated, allocation shares will be applied

<i>Resource Utilization</i>			
Country	Cod	Haddock	Ytl
USA	40%	45%	98%
CANADA	60%	55%	2%

<i>Resource Distribution</i>					<i>Weighting</i>			<i>Allocation Shares</i>		
Country	Survey Year	Cod	Haddock	Ytl	Fishing Year	Utilization	Distribution	Cod	Haddock	Ytl
