

## LIST OF REFERENCES

### **Final Rule: Endangered and Threatened Species; Removal of the Puget Sound/Georgia Basin Distinct Population Segment of Canary Rockfish from the Federal List of Threatened and Endangered Species, and Remove their Designated Critical Habitat, and Update and Amendment the Listing Descriptions for the Yelloweye Rockfish DPS and Bocaccio DPS**

Andrews, K. and K. Nichols. 2016. Answers to Comments on *Section 2.3.1.3 – Genetics, Genetic Variation, or Trends in Genetic Variation (e.g., loss of genetic variation, genetic drift, inbreeding, etc.)*: 5-year review: Yelloweye rockfish (*Sebastes ruberrimus*), canary rockfish (*Sebastes pinniger*), and bocaccio (*Sebastes paucispinis*) of the Puget Sound/Georgia Basin. Memorandum for Chris Yates, Assistant Regional Administrator, West Coast Region Protected Resources Division.

COSEWIC. 2008. COSEWIC assessment and status report on the yelloweye rockfish, *Sebastes ruberrimus*, Pacific Ocean inside waters population and Pacific Ocean outside waters population, in Canada. Committee on the Status of Endangered Wildlife in Canada. Ottawa. vii + 75 pages.
