Topics

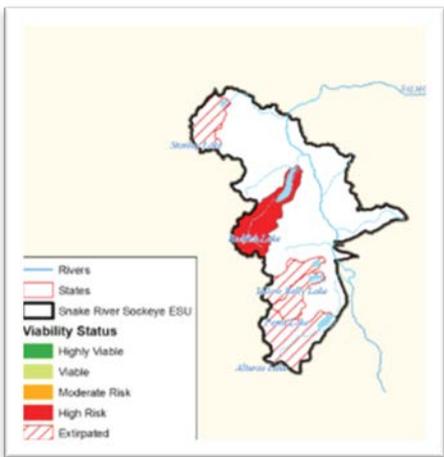

- Introduction and Overview
- Recovery Plan “Architecture”
- Update on Completion of Draft Products
- Timeline and Next steps

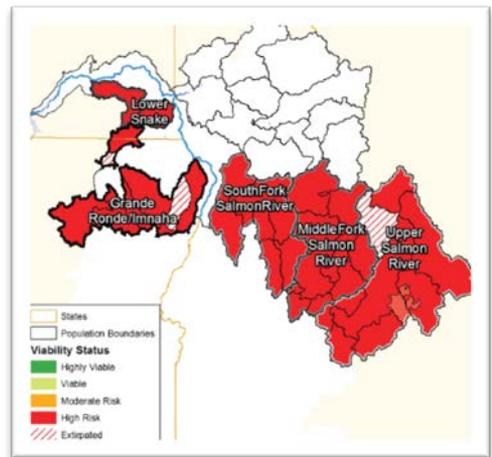

Snake River Recovery Domain

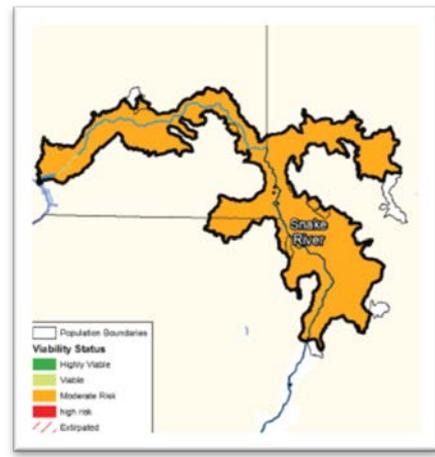

Sockeye

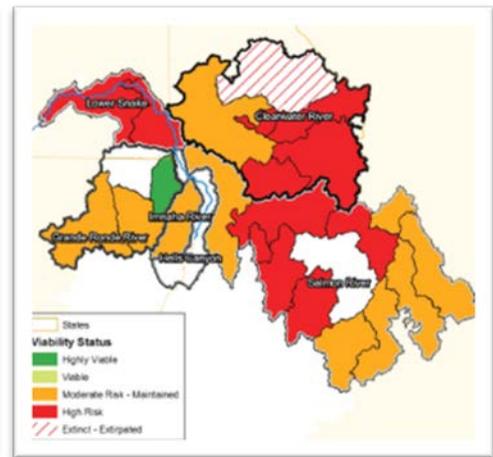

Spring/Summer Chinook

Fall Chinook

Steelhead

Snake River Recovery Plan Architecture

Snake River Recovery Plan

Addresses All 4 Listed Species

"Roll-up" Plan for ESU/DPS Synthesis

Spring/Summer Chinook & Steelhead

SE Washington Plan

- Habitat
- Hydro
- Hatchery
- Harvest

NE Oregon Plan

- Habitat
- Hydro
- Hatchery
- Harvest

Idaho Plan

- Habitat
- Hydro
- Hatchery
- Harvest

"Management Unit" Plans

Sockeye Plan

- Habitat
- Hydro
- Hatchery
- Harvest

Fall Chinook Plan

- Habitat
- Hydro
- Hatchery
- Harvest

Estuary Module

Hydro Module

Harvest Module

Status of Recovery Plan Products

- Spring/Summer Chinook and Steelhead Recovery Plan
 - SE Washington Management Unit Plan
 - Idaho Management Unit Plan
 - NE Oregon Management Unit Plan
 - Roll-up Plan Synthesis
- Draft Sockeye Recovery Plan
- Draft Fall Chinook Recovery Plan
- Draft Modules: Estuary, Hydro and Harvest

Process to Develop Recovery Plans

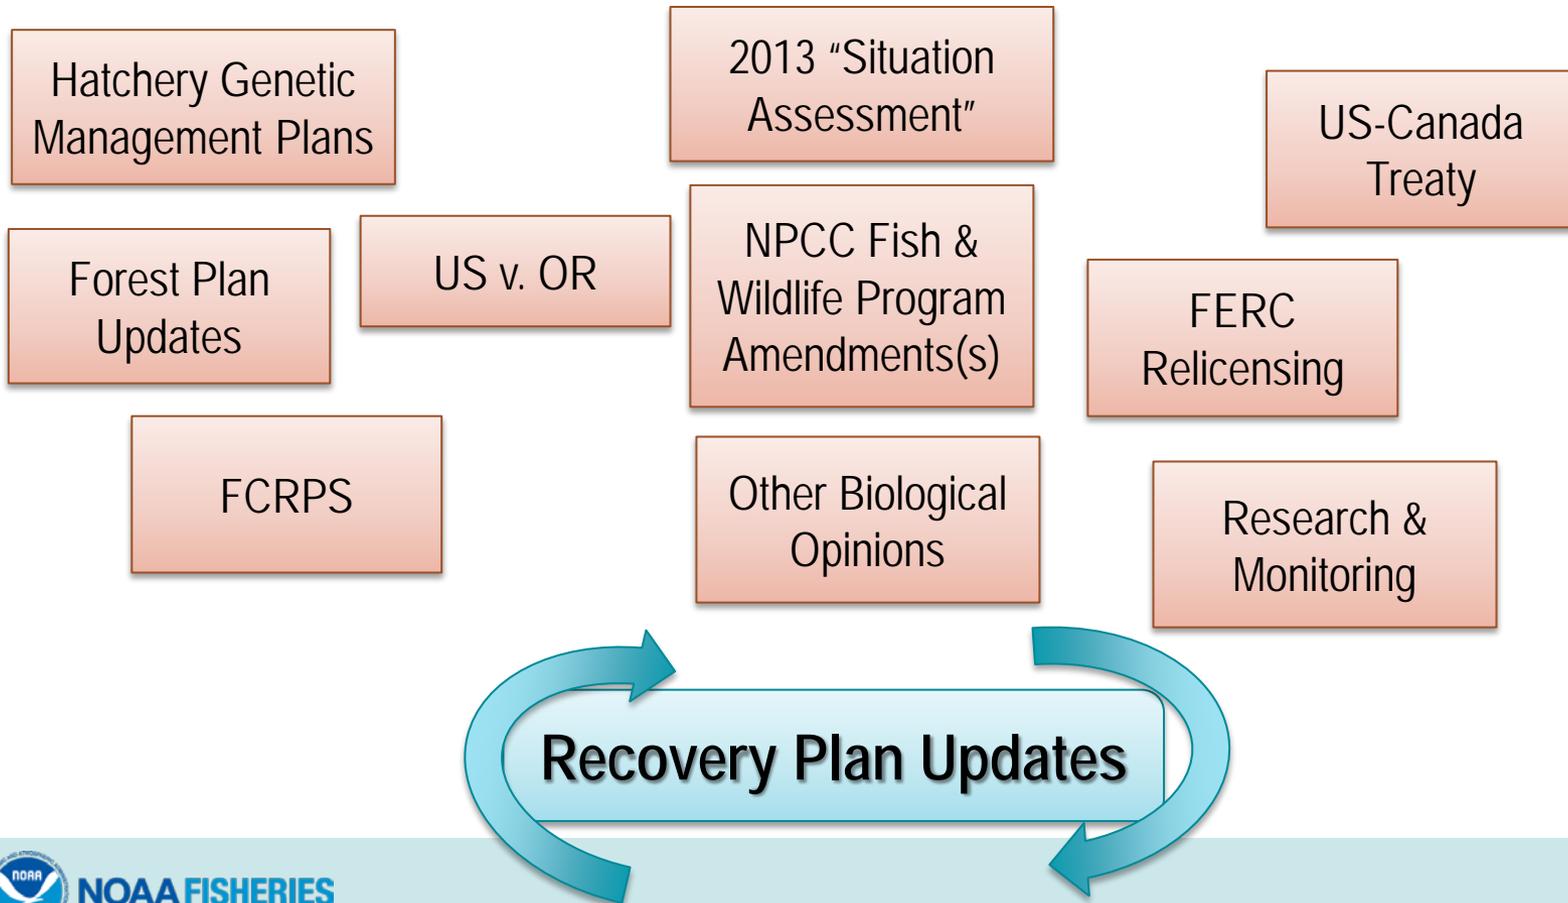

- Collaborate with co-managers and relevant groups to develop each draft recovery plan
- Coordinate with NMFS-formed Snake River Coordination Group
- Brief and coordinate with Federal Caucus, Northwest Power and Conservation Council, etc.
- Brief and coordinate with US v Oregon Policy Group
- Communicate via NMFS web site

Recovery Planning Schedule

- November 2013 - Draft Recovery Plans
- Early 2014 – Notice of Proposed Recovery Plans
- 2015 – Final Recovery Plans
- 2018 – Update Plans – Integrated All-H Strategies

Recovery Plan Updates

2015 Final Snake River Recovery Plans

Next Steps

- How to be involved in development or review of individual draft Plans?
- How to track progress of draft Plans?
- What is the best way to keep the you informed of progress?

- Northwest Fisheries Science Center
- NOAA Fisheries Headquarters

- Education & Outreach
- Newsroom
- A-Z Subject Index

- How do I?
- Log into my IFQ account?
 - Find a biological opinion?
 - Report a stranded marine

Current Snake River Recovery Plan Documents

NOAA Fisheries currently is developing a recovery plan for the four listed Snake River species – steelhead, spring/summer Chinook, fall Chinook and sockeye. The target for releasing a proposed plan is early 2014. It is our intent to optimize Recovery Plan implementation through stakeholder involvement in developing draft products, particularly through NOAA Fisheries' Snake River Coordination Group. The target for final plan completion is 2015. In the interim, several draft products are available below.

Status of Draft Products

Document	Date Released	Comment Status	NOAA Contact
Draft Snake River Harvest Module	December 2010	Comment period closed; document being edited	Enrique Patino: Enrique.Patino@noaa.gov 206.526.4655
Draft Snake River Hydro Module	February 2012	Comment period closed April 30, 2012	Ritchie Graves: Ritchie.Graves@noaa.gov 503.231.6891
